

Jellyfish KCV - Art and Design

Key facts to learn:

- Topic: Great Explorers
 - Drawing in preparation for form
 - Form -e.g. design and make an Island and it's animals
 - Artist study: Eric John Hosking

Key skills to do:

• Look at drawings and comment thoughtfully, begin to discuss use of shadows/shading, tones, use of light and dark

- Colour neatly in the lines. Cross hatching, dots, lines of different shapes/thickness
- Construct from found junk materials. Join materials together
- Sketch to make quick records of something
- Awareness of natural and manmade forms and environments
- Expression of personal experiences and ideas in work
- Also able to shape and form from direct observation
- Use a range/combination of decorative techniques: applied, impressed, painted, etc
- Use a range of tools for shaping, and mark making
- Cutting and carving
- Replicate patterns and textures in a 3-D form. Use rolled up paper, straws, card, clay, dough or plasticine

organs and a nervous systemConstructBuild or make somethingImpressedApplied to something using pressureAppliedPut to practical use	Island	A piece of land surrounded by water	
ConstructBuild or make somethingImpressedApplied to something using pressureAppliedPut to practical use	Animals		
ImpressedApplied to something using pressureAppliedPut to practical use			
Applied Put to practical use	Construct	Build or make something	
••	Impressed	Applied to something using pressure	
Carving A design carved from a hard material	Applied	Put to practical use	
• •	Carving	A design carved from a hard material	

Concept check questions. Test yourself:

How does Eric John Hosking use shadows, shading and tone, light and dark?

What sketching skills could you use to make a quick record of something?

What decorative techniques do you know?

What tools could you use for shaping and marking?

What materials could you use to make patterns and textures?
