

## KS2 Topic KCV – Land-use, trade and economics

Global Citizenship Link: Knowledge and understanding – fair trade

### Key Knowledge

- To know that countries buy and sell goods according to what they are able to produce themselves
- To know that this can be affected by a range of factors including costs, climate and labour
- To know that goods are distributed through complex supply chains to customers and that these are different for different products
- To know some of the UK's and other countries' biggest imports and exports
- To know what constitutes fair trade and how to identify it

### Key Concept Questions

- Can we produce all of the things we buy in the United Kingdom?
- How do we get things from different countries?
- Are all supply chains the same?
- What are some of the UK's major imports?
- What are some of the exports other countries make the most money from?
- How can we identify fair trade products?

### High Frequency Vocabulary (Tier 2)

Trade	Export	Market
Economics	Trader	Quantity
Monetary	Duty	Industry
Import	Stock	Agriculture

### Subject Specific Vocabulary (Tier 3)

Products	An object or system made available for consumer use
