

Microhabitats

Under stones and rocks.

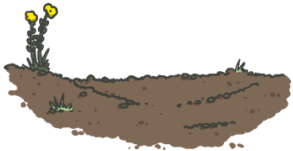

In short grass.

Inside rotting wood.

Under fallen leaves.

In and on the soil.

In tall grass and flowers.

Oak Class
Summer 1 2023
Science
Living Things and
their Habitats

Key Concepts:

- identify and name a variety of plants and animals in their habitats, including microhabitats
- describe how animals obtain their food from plants and other animals, using the idea of a simple food chain, and identify and name different sources of food

Working Scientifically:

- observing closely, using simple equipment
- identifying and classifying
- asking simple questions and recognising that they can be answered in different ways
- gathering and recording data to help in answering questions

Key Questions:

1. What questions can we ask about microhabitats?
2. How can we present the results of our investigation in the best way?
3. What different habitats are there in Great Britain?
4. What is a food chain?

Coastal

Urban

Habitats found in Great Britain

Pond

Woodland
