

# Science: Plants

## Oak Class Summer Term 2 2023

### Key Concepts:

- observe and describe how seeds and bulbs grow into mature plants
- find out and describe how plants need water, light and a suitable temperature to grow and stay healthy

### Working Scientifically:

- observing closely, using simple equipment
- performing simple tests
- identifying and classifying

### Key Questions:

- What do plants need to grow?
- What is the life cycle of a plant?
- What do plants need to stay healthy?
- How do plants manage to grow in different places?

**Global Citizenship:** Concern for the environment and commitment to sustainable development; critical and creative thinking

**Vocabulary:** germination, shoot, sunlight, water, temperature, food, bulbs, seeds, seed dispersal, fair test, life cycle, soil, predict, observe, record
